

Lab Exam Requirements & Format

WFS 340: Wetlands Ecology and Management

Time and Location: 2:00 pm on Friday, 13 November 2015, in 160 PBB

Requirements:

- Anuran ID (15 species: slides) and calls (15 species)
- Reptile ID (32 species: slides)
- Waterbird ID (42 species: slides)
- USFWS Wetland Classification (slides and written questions)
- Wetland Characteristics and Regulations (written questions)
- TAMP Protocol (written questions)

Format:

The lab exam will be divided into 2 sections (slides and written questions). The first section will be identifying anurans, reptiles, waterbirds, and wetland classes and subclasses from slides. Also, there will be anuran calls that you will have to identify. You will be allowed to inspect the slide from your seat for 1 minute, and slides will not be shown again. Please note that you will lose ½ point for incorrect spelling, incomplete names (e.g., bullfrog instead of American bullfrog) or unreadable responses (please write clearly). For names, you may provide either the common or scientific name.

The second section will be written questions over the wetland characteristics, wetland regulation, and wetland classification lectures. There also will be questions over TAMP survey protocol and waterbird life history. There will be a 15-minute break between sections.

The lab exam will count for **30% of your final grade**.
