Lab Exam Requirements & Format
WFS 340: Wetlands Ecology and Management

Time and Location: 9:00 am on Monday, 19 November 2018, in 156/157 PBB

Requirements: TAMP Workshop by Bob English; Waterbird Lectures by Chris Graves

• Anuran ID (15 species: slides) and calls (15 species)
• Waterbird ID (42 species: slides)
• TAMP Protocol (written questions)
• Basic Life History of anurans and waterbirds (written questions)

Format:

The lab exam will be divided into 2 sections (slides and written questions). The first section will be identifying anurans and waterbirds from slides. Also, there will be anuran calls that you will have to identify. You will be allowed to inspect the slide from your seat for 1 minute, and slides will not be shown again. Please note that you will lose ½ point for incorrect spelling, incomplete names (e.g., bullfrog instead of American bullfrog) or unreadable responses (please write clearly). For names, you may provide either the common or scientific name.

The second section will be written questions over basic life history discussed during the ID lectures and the TAMP survey protocol. There will be a 10-minute break between sections.

The lab exam will count for 25% of your final grade.
