

# Identification of Tennessee Anurans

*Hyla versicolor*

**Matthew J. Gray**  
College of Agricultural Sciences and Natural Resources  
University of Tennessee-Knoxville

---

---

---

---

---

---

---

---

## Anuran Families

Suborder Mesobatrachia      **Order Anura**      Suborder Neobatrachia

**Bufonidae**

2  
True Toads

**Scaphiopodidae**

1  
American Spadefoots

**Microhylidae**

1  
Narrow-mouthed Toads

**Hylidae**

10  
Tree Frogs

**Ranidae**

7  
True Frogs

---

---

---

---

---

---

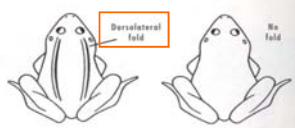

---

---

## Morphological Characteristics

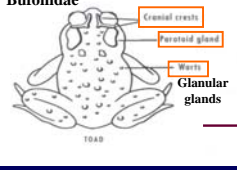

**Ranidae, Hylidae**

FEET

Some species are distinguished by the presence of raised longitudinal folds

**Bufonidae**

Cranial crests  
Parotoid glands  
Warts  
Granular glands

**FEET OF TOADS AND FROGS**

TOAD      TREEFROG      TRUE FROG

---

---

---

---

---

---

---

---

**Family**  
**Bufonidae**

## American toad

(*Anaxyrus americanus*)

AMERICAN  
(americanus)  
Parotoid separate  
or connected to  
ridge by a spot

© Tom Young  
Mass Audubon

SVL = 3"

Eggs: 1-2 strings  
(4,000-12,000 eggs)  
>10 m length

**Breeding Call**

- Long, musical trill (constant)

**Breeding Season**

- Early (March)

**Characteristics:**

- Parotoid glands rarely touch cranial crest
- 1-2 granular glands "warts" per dark spot

---

---

---

---

---

---

---

---

---

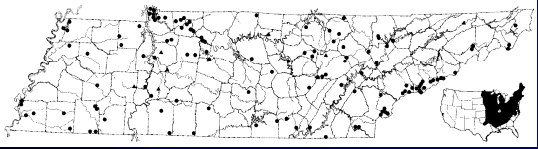

---

**Family**  
**Bufonidae**

## American toad

(*Anaxyrus americanus*)

**Distribution:** **EM**

<http://www.apsu.edu/amatlas/>

- Eastern United States
  - Statewide

© Matt Brown

---

---

---

---

---

---

---

---

---

---

**Family**  
**Bufonidae**

## Fowler's toad

(*Anaxyrus fowleri*)

FOWLER'S  
(fowleri)  
Parotoid touches  
postorbital ridge

© Tom Young  
Mass Audubon

SVL = 2.5"

Eggs: 1-2 strings  
(5,000-10,000 eggs)  
<3 m length

**Breeding Call**

- Nasal "w-a-a-h"
- Sheep bleating or baby crying

**Breeding Season**

- Mid (May)

**Characteristics:**

- Parotoid glands touch cranial crest
- $\geq 3$  granular glands "warts" per dark spot

---

---

---

---

---

---

---

---

---

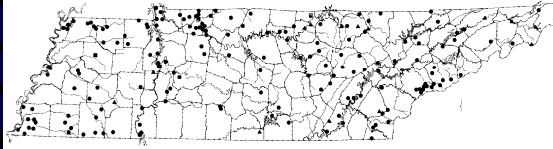

---

**Family**  
**Bufonidae**

## Fowler's toad

(*Anaxyrus fowleri*)

**Distribution:** **EM**

<http://www.apsu.edu/amatlas/>

- Eastern United States
  - **Statewide**

---

---

---

---

---

---

---

---

**Family**  
**Scaphiopodidae**

## Eastern spadefoot

(*Scaphiopus holbrookii*)

Metatarsal tubercle

T-storms

© Tom Young, Miss Audubon

SVL = 2"

**Breeding Call**

- Nasal grunts:  
"wahh, wahh, wahh"
- Young crow

**Breeding Season**

- Late (June, July)  
(heavy rain)

**Characteristics:**

- Vertical Pupil
- **Glanular glands but no parotoid glands**

---

---

---

---

---

---

---

---

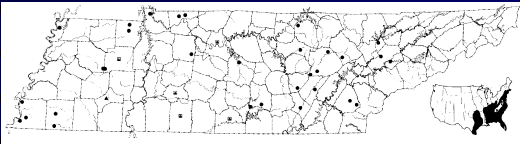

**Family**  
**Scaphiopodidae**

## Eastern spadefoot

(*Scaphiopus holbrookii*)

**Xeric Adapted Genera**

**Distribution:** **EM-S**

<http://www.apsu.edu/amatlas/>

- Southeastern United States
  - **Statewide (rare Smokies)**

---

---

---

---

---

---

---

---

Family  
Microhylidae

## Eastern narrow-mouthed toad

(*Gastrophryne carolinensis*)

T-storms

SVL = 1"

**Breeding Call**

- High pitch buzz "bzzzzzz"
- Insect wings

**Breeding Season**

- Late (June, July) (heavy rain)

**Characteristics:**

- Pointed snout, short limbs, plump body
- **Folded skin between eyes**

---

---

---

---

---

---

---

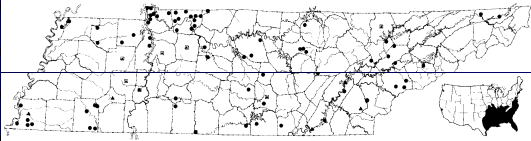

---

Family  
Microhylidae

## Eastern narrow-mouthed toad

(*Gastrophryne carolinensis*)

**Distribution:** EM-S

<http://www.apsu.edu/amathas/>

- Southeastern United States
- **Statewide (rare Smokies)**

Specialize in eating ants!

---

---

---

---

---

---

---

---

Family  
Hylidae

## Northern cricket frog

(*Acris crepitans*)

*Acris* = locust  
*crepitans* = clattering

**Breeding Call**

- Metallic clicking (2 metal balls)
- Tempo changes: (slow-fast-slow)

SVL = <1"

**Breeding Season**

- Mid (May)

**Characteristics:**

- Dark triangle between eyes; often bright "Y" racing stripe
- **>1/2 of longest toe on rear feet webbed**

---

---

---

---

---

---

---

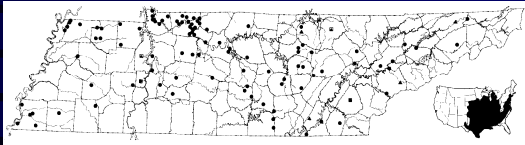

---

**Family**  
Hylidae

**Northern cricket frog**  
(*Acris crepitans*)

**Emergent wetlands with direct sun**

**Distribution:** EM

<http://www.apsu.edu/amtlas/>

- Midwest and Eastern U.S.
- Statewide

---

---

---

---

---

---

---

---

**Family**  
Hylidae

**Southern cricket frog**  
(*Acris gryllus*)

*Acris* = locust  
*gryllus* = cricket

**Breeding Call**

- Metallic clicking (2 metal balls)
- Raspier, shorter
- Tempo constant

**Breeding Season**

- Late (June, July)

**Characteristics:**

- Dark triangle between eyes; often bright "Y" racing stripe (more distinct line than *A. crepitans*)
- $\leq 1/2$  of longest toe on rear feet webbed

SVL = <1"

---

---

---

---

---

---

---

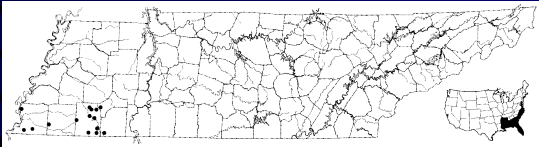

---

**Family**  
Hylidae

**Southern cricket frog**  
(*Acris gryllus*)

**Highly dexterous**

**Distribution:** EM/F

<http://www.apsu.edu/amtlas/>

- Deep Southern U.S.
- Southwest TN

---

---

---

---

---

---

---

---

**Family**  
Hylidae

**Bird-voiced treefrog**  
(*Hyla avivoca*)

Highly arboreal:  
forested wetlands and streams

**Breeding Call**  
• Bird-like chirping  
• Whistling for dog

**Breeding Season**  
• Mid (May, June)

SVL = 1.5"

**Characteristics:**  
Coloration can be highly variable!

- Light green or gray with light-colored patch under eye
- **No flash colors like gray treefrogs**

---

---

---

---

---

---

---

---

**Family**  
Hylidae

**Bird-voiced treefrog**  
(*Hyla avivoca*)

**Distribution:** F

<http://www.apsu.edu/amAtlas/>

- Primarily MAV
- **Western TN**

---

---

---

---

---

---

---

---

**Family**  
Hylidae

**Green treefrog**  
(*Hyla cinerea*)

**Breeding Call**  
• Short nasal repeating "quonk"  
• Bicycle horn

**Breeding Season**  
• Late (June, July)

SVL = 2"

**Characteristics:**

- Always green, smooth back and belly
- **White-yellow stripe extending from upper lip mid-laterally**

---

---

---

---

---

---

---

---

**Family**  
**Hylidae**

## Green treefrog

*(Hyla cinerea)*

**Good climbers,  
Nocturnal**

**Distribution:** **F, EM**

<http://www.apsu.edu/amAtlas/>

- Southeastern United States
  - **Western TN**

---

---

---

---

---

---

---

---

**Family**  
**Hylidae**

## Cope's Gray treefrog

*(Hyla chrysoscelis)*

**Breeding Call**

- Short raspy trill (constant)
- Faster than *H. versicolor*

34-69 pulses/sec

SVL = 2"

**Breeding Season**

- 1/2 chromosomes of *H. versicolor*
- Mid (May, June)

**Highly arboreal:  
forested wetlands**

**Characteristics:**

- Gray to greenish with mottled back
- **Yellow-orange flash colors under legs**

---

---

---

---

---

---

---

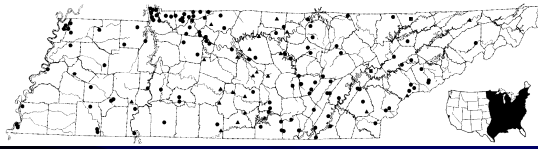

---

**Family**  
**Hylidae**

## Cope's Gray treefrog

*(Hyla chrysoscelis)*

**Distribution:** **EM, F**

<http://www.apsu.edu/amAtlas/>

- Eastern United States
  - **Statewide**

---

---

---

---

---

---

---

---

Family  
Hylidae

## Gray treefrog

*(Hyla versicolor)*

### Breeding Call

- Short raspy trill
- Slower than *H. chrysoscelis*  
17-35 pulses/sec
- 2X chromosomes of *H. chrysoscelis*

### Breeding Season

- Mid (May, June)

### Distribution

- West Tennessee

Species of  
Concern  
(G5, S5)

### Characteristics:

- Gray to greenish with mottled back
- **Yellow-orange flash colors under legs**

---

---

---

---

---

---

---

---

Family  
Hylidae

## Barking treefrog

*(Hyla gratiosa)*

### Breeding Call

- Steady raspy honk
- Sounds similar to a beagle bark or Canada goose
- Higher pitch than green frog

### Breeding Season

- Late (June, July)

### Characteristics:

- Solid green (granulated) or green with dark spots
- **White upper lip does not extend mid-laterally**

Largest of  
the treefrogs  
in Tennessee

---

---

---

---

---

---

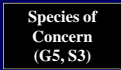

---

---

Family  
Hylidae

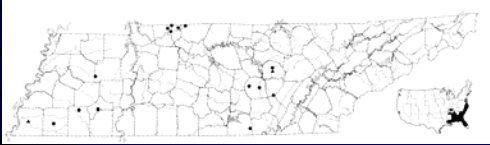

## Barking treefrog

*(Hyla gratiosa)*

### Distribution:

F

<http://www.apsu.edu/amatlas/>

- Deep Southern U.S.
  - **West TN & Cumberland Plateau**

---

---

---

---

---

---

---

---

Family  
Hylidae

## Spring Peeper

*(Pseudacris crucifer)*

### Breeding Call

- Clear Distinct Peep

### Breeding Season

- Early (Feb, March)

“Cross bearer”

SVL = 1”

Prefers woodland pools

### Characteristics:

- Light-brown, smooth skin with dark line between eyes
- **Dark cross on back**

---

---

---

---

---

---

---

---

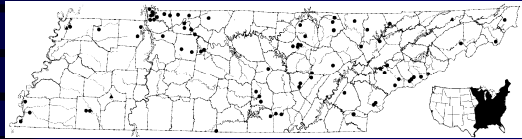

Family  
Hylidae

## Spring Peeper

*(Pseudacris crucifer)*

### Distribution:

F/EM

<http://www.apsu.edu/amatlas/>

- Eastern United States
- **Statewide**

---

---

---

---

---

---

---

---

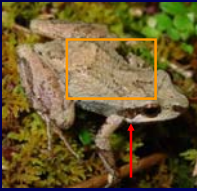

Family  
Hylidae

## Mountain Chorus Frog

*(Pseudacris brachyphona)*

### Breeding Call

- Short, raspy call that rises in pitch
- Running finger over comb but duller than *P. feriarum*

### Breeding Season

- Early (April)

SVL = 1”

1/3 size of a wood frog

### Characteristics:

- Light-brown, smooth skin with dark line through eye
- **Backward parentheses on back (sometimes)**

---

---

---

---

---

---

---

---

**Family**  
**Hylidae**

## Mountain Chorus Frog

(*Pseudacris brachyphona*)

**Distribution:** **F/EM-S** Forested wetlands >1000 m elevation

<http://www.apsu.edu/amatlas/>

- Southern Appalachia
- Mostly Cumberland Mountains and Plateau

---

---

---

---

---

---

---

---

**Family**  
**Hylidae**

## Southeastern Chorus Frog

(*Pseudacris feriarum*)

**Breeding Call**

- Running finger over comb but more metallic than *P. brachyphona*

SVL = 1"

**Breeding Season**

- Early (January)

**Characteristics:**

- Light to dark brown with dark triangle between eyes
- Three dark dorsal lines (usually)

**Note:** call rises (gray treefrogs do not)

**Earliest breeding frog**

---

---

---

---

---

---

---

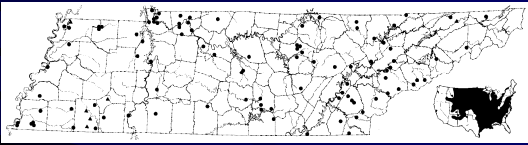

---

**Family**  
**Hylidae**

## Southeastern Chorus Frog

(*Pseudacris feriarum*)

**Distribution:** **EM** Prefer emergent wetlands

<http://www.apsu.edu/amatlas/>

- Southeastern United States
- Statewide

---

---

---

---

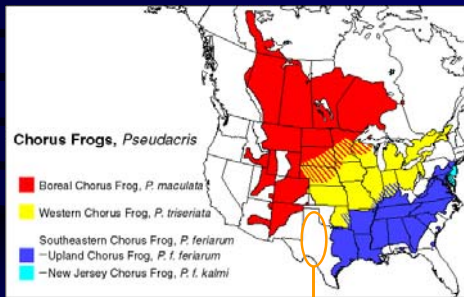

---

---

---

---

## Chorus Frog Distributions

Spotted Chorus Frog (*P. clarkii*)

---

---

---

---

---

---

---

---

Family  
Ranidae

## Crawfish Frog (*Lithobates areolatus*)

Lives in  
crawfish and  
small mammal  
burrows.

### Breeding Call

- Deep "Waaaaa"
- Sounds like someone snoring

SVL = 2.5"

### Breeding Season

- Early (March)

Species of  
Concern  
(G4, S4)

### Characteristics:

- Dark spots encircled in white, white throat
- **Dorsal lateral folds very apparent**

---

---

---

---

---

---

---

---

Family  
Ranidae

## Crawfish Frog (*Lithobates areolatus*)

Known to eat  
crawfish and  
small  
amphibians.

### Distribution: EM

<http://www.apsu.edu/amatlas/>

- Mississippi Alluvial Valley
- **West Tennessee**

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## Gopher Frog

(*Lithobates capito*)

**Breeding Call**

- Deep drawn-out snore or growl
- Sounds like a woodpecker pecking

**Breeding Season**

- Early (Feb)

**Characteristics:**

- Dark spots NOT encircled in white, spotted throat
- **Dorsal lateral folds & sacral humps** apparent

SVL = 3"

• Sometimes calls from beneath water

Species of Concern (G3, S1)

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## Gopher Frog

(*Lithobates capito*)

**Distribution:** **EM**

**Life History in Tennessee is Unknown**

Rarest anuran in Tennessee

1993: Dr. Brian Miller

<http://www.apsu.edu/amatlas/>

- Gulf Coastal Plain
- **Coffee County (Tullahoma)**

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## American bullfrog

(*Lithobates catesbeianus*)

**Breeding Call**

- loud deep "jug-o-rum"
- Often play dead when handled

**Breeding Season**

- Late (June, July)

**Characteristics:**

- Green or brown with dorsal lateral folds around tympanum
- **Males: Tympanum larger than eye**

SVL = 5"

Largest frog in Tennessee

Eat anything can fit in mouth

---

---

---

---

---

---

---

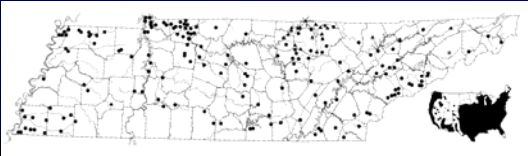

---

**Family**  
**Ranidae**

## American bullfrog

(*Lithobates catesbeianus*)

**Distribution:** **EM**

<http://www.apsu.edu/amatlas/>

- Eastern U.S.  
(introduced western states)
- **Statewide**

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## Green frog

(*Lithobates clamitans*)

**Breeding Call**

- Short, explosive "glunk"
- Banjo string being plucked
- Lower pitch than barking treefrog

SVL = 3"

**Breeding Season**

- Late (June, July)

**Characteristics:**

- Green or brown with dorsal lateral folds extending past tympanum, center of tympanum raised
- Males: Tympanum larger than eye

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## Green frog

(*Lithobates clamitans*)

**Distribution:** **EM**

<http://www.apsu.edu/amatlas/>

- Eastern United States
- **Statewide**

---

---

---

---

---

---

---

---

Family  
Ranidae

## Pickerel frog

(*Lithobates palustris*)

### Breeding Call

- Drawn-out, descending snore, "yeeeeeeooooow"
- Not as deep as *R. areolata* and *capito*

SVL = 2.5"

### Breeding Season

- Early (April)

### Characteristics:

- Tan with dark paired dorsal spots (square)
  - **No white spot on tympanum**

---

---

---

---

---

---

---

---

Family  
Ranidae

## Pickerel frog

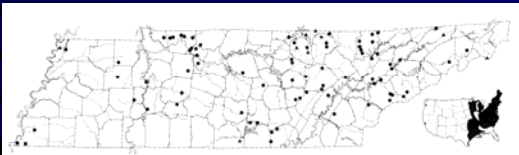

(*Lithobates palustris*)

Prefer cool water with high water quality

### Distribution:

EM

- Eastern United States (excluding Gulf Coast)
  - **Statewide** (less common in west TN)

<http://www.apsu.edu/amatlas/>

---

---

---

---

---

---

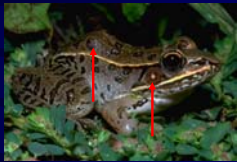

---

---

Family  
Ranidae

## Southern leopard frog

(*Lithobates sphenoccephalus*)

### Breeding Call

- Series of clucks or chuckles
- Also, groans similar to rubbing hand over a balloon

SVL = 2.5"

### Breeding Season

- Early (Feb, March)

### Characteristics:

- Tan with dark dorsal spots in irregular pattern
  - **White spot on tympanum**

---

---

---

---

---

---

---

---

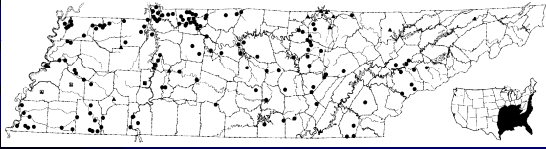

**Family**  
**Ranidae**

## Southern leopard frog

(*Lithobates sphenoccephalus*)

**Distribution:** **EM**

Escapes predators by swimming underwater

<http://www.apsu.edu/amatlas/>

- Southeastern U.S.
  - Statewide

(not common in Smokies)

---

---

---

---

---

---

---

---

**Family**  
**Ranidae**

## Wood frog

(*Lithobates sylvaticus*)

**Breeding Call**

- Series of clucks or chuckles (mallard)
- Interspersed with low grunts

SVL = 2"

**Breeding Season**

- Early (February)

Bi-colored Embryos  
Black (above), white (below)

Forested wetlands often before ice is gone

**Characteristics:**

- Tan dark mask below and behind eye
  - White upper lip

---

---

---

---

---

---

---

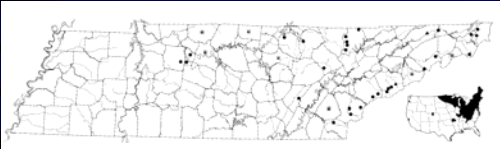

---

**Family**  
**Ranidae**

## Wood frog

(*Lithobates sylvaticus*)

**Distribution:** **F**

<http://www.apsu.edu/amatlas/>

- Northeastern U.S.
  - Middle & East TN

---

---

---

---

---

---

---

---

## Seasonal Occurrence

### Tennessee Anurans

**January:** southeastern chorus frog

**February:** wood frog, spring peeper, gopher frog

**March:** American toad, southern leopard frog, crawfish frog

**April:** pickerel frog, mountain chorus frog

**May:** Fowler's toad, northern cricket frog, gray treefrogs, bird-voiced treefrog

**June/July:** green frog, American bullfrog, southern cricket frog, eastern narrow-mouthed toad, eastern spadefoot, barking treefrog, green treefrog

**August-Dec:** possible to hear most species especially after rains and on warm days in fall and winter, although breeding for temperate anurans is concentrated January-July.

---

---

---
