Male or female?

#17

**What is the largest anuran in
Tennessee?**

Scientific Name

#18

At the same temperature,
which species has a slower call
(i.e., fewer pulses/sec)?

- A) Cope's gray treefrog
- B) Gray treefrog

#19

Which family of anurans is
known for conspicuous
granular glands on their dorsal
surface, commonly referred to
as "warts"?

#20

Which species generally
distributes their eggs over a
shorter distance comparatively
(e.g., <3 m) in the water?

- A) *Bufo americanus*
- B) *Bufo fowleri*

#21

**Provide 1 of the 2 anuran families
whose tadpoles have lateral eyes**

NOTE: One of these families includes a genus
where this is not true.

**If you indicate this family, provide the genus
that does not have lateral eyes also.**

#22

**What family of tadpoles does not
have papillae?**

#23

**Provide 1 of the 2 anuran families
whose tadpoles have dextral vents**
