

## Required Tennessee Salamanders

### WFS 433/533

Common name	Family	Scientific name	
spotted dusky salamander	Plethodontidae	<i>Desmognathus conanti</i>	
Santeetlah dusky salamander		<i>Desmognathus santeetlah</i>	
seal salamander		<i>Desmognathus monticola</i>	
black-bellied salamander		<i>Desmognathus quadramaculatus</i>	
shovel-nosed salamander		<i>Desmognathus marmoratus</i>	
Ocoee salamander		<i>Desmognathus ocoee</i>	
imitator salamander		<i>Desmognathus imitator</i>	
pygmy salamander		<i>Desmognathus wrighti</i>	
southern red-backed salamander		<i>Plethodon serratus</i>	
Jordon's salamander		<i>Plethodon jordani</i>	
Blue Ridge two-lined salamander		<i>Eurycea wilderae</i>	
spring salamander		<i>Gyrinophilus porphyriticus</i>	
hellbender		Cryptobranchidae	<i>Cryptobranchus alleganiensis</i>
mudpuppy		Proteidae	<i>Necturus maculosus</i>
three-toed amphiuma	Amphiumidae	<i>Amphiuma tridactylum</i>	
lesser siren	Sirenidae	<i>Siren intermedia</i>	
tiger salamander	Ambystomatidae	<i>Ambystoma tigrinum</i>	
mole salamander		<i>Ambystoma talpoideum</i>	
spotted salamander		<i>Ambystoma maculatum</i>	
marbled salamander		<i>Ambystoma opacum</i>	
eastern newt	Salamandridae	<i>Notophthalmus viridescens</i>	

<sup>1</sup>Must be able to identify by sight (slide).

<sup>2</sup>Need to be able to spell the family, common name, and scientific name correctly.

<sup>3</sup>Tennessee is home to around 60 salamander species; we will most likely encounter the plethodontid species above during our field trip to Great Smoky Mountains National Park.
